This policy is intended to set the standard expected at the Mid Devon Show and has been agreed by both the show's organiser's and Environmental Health at Mid Devon District Council. The purpose of this document is to assist our Food Hall, and Catering Concessions meet the requirements of the Food Hygiene (England) Regulations 2013. This document is in addition to the Show's trading terms and conditions. The responsibility for complying with relevant legislation is that of the individual trading business.

Minimum Standards:

- **Structure:** Walls, floors and work surfaces must be in good repair, easily washable and mud-free. Depending on conditions and product a suitable clean floor surface may be required.
- **Food safety management procedures documentation:** Based on HACCP - the Food Standards Agency's 'Safer Food Better Business' or NACSS Due Diligence pack will be acceptable provided it is relevant, complete and made available for inspection. New packs and diary refills for SFBB can be ordered direct from <https://www.food.gov.uk/business-industry/caterers/sfbb>. Traders should be aware of their responsibility for complying with the Food Information to Consumers Regulations (*Allergens and intolerences*).

Disposable paper towels are preferable and a suitable refuse bin should be provided for used towels. A purpose built sink unit e.g. a Teal unit is preferred but if one cannot be provided then a marked clean plastic bowl only used for this purpose can be used, provided that hot and cold water is made available. A large, clear notice reminding food handlers to wash their hands must be displayed.
- **Protective clothing:** Persons involved in the handling of open food must wear clean and washable overalls. These must be changed daily or more frequently if they become dirty. Outdoor clothing and footwear must be stored away from food preparation areas. Long hair must be tied up or covered by a hairnet or hat. Jewellery and Nail Varnish should not be worn
- **Water supply:** A sufficient supply of clean and wholesome water must be available at each outlet. Water containers must be cleaned and disinfected inside and out. A chlorine based steriliser e.g. 'Milton' should be used. Water supply locations are clearly marked on the site map. There is no drinking water supply available on site.
- **Drainage:** Arrangements must be made for the drainage of waste water from sinks and hand wash basins. If waste containers are to be used these must be clearly marked 'WASTE WATER'.
- **Temperature control:** Sufficient storage space for all foods requiring refrigeration must be provided. The temperature of these foods must be maintained at 8°C or below.
- **Protection against contamination:** All open food on display must be kept covered or protected by screens. Raw and cooked or 'ready to eat' foods must be kept separate at all times. Food must be kept at least 18 inches off the ground.
- **Training:** All persons handling food must be suitably trained
